INFLUENZA SITUATION SUMMARY

Executive Summary

The Medical and Health Coordination Center (MHCC) remains activated at Level 3 (low) to compile and update information related to influenza from a variety of sources and coordinate response activities across California Department of Public Health (CDPH) Centers and Programs.

California continues to see widespread levels of influenza and influenza-like illnesses (ILI) with hospitalizations above expected levels, as reported on 02/02/18. Updated influenza data is released by the CDPH Center for Infectious Diseases (CID) each Friday. During Week 4 (01/21/18 – 01/27/18), CID reports there were thirty (30) laboratory confirmed influenza associated fatalities and thirty-four (34) laboratory confirmed influenza outbreaks. This is an increase of seven (7) fatalities and two (2) outbreaks from week 3. During the time period that CDPH has been monitoring seasonal influenza in 2018, there have been 127 laboratory confirmed influenza associated fatalities and 250 laboratory confirmed influenza outbreaks in people under the age of 65.

WEATHER OF CONCERN

Weather of Concern

- There is no weather of concern.

Active Weather Warnings, Watches and Advisories by County:

- <https://alerts-v2.weather.gov/counties/CA>

WEATHER SYNOPSIS BY REGION

NORTHERN CALIFORNIA

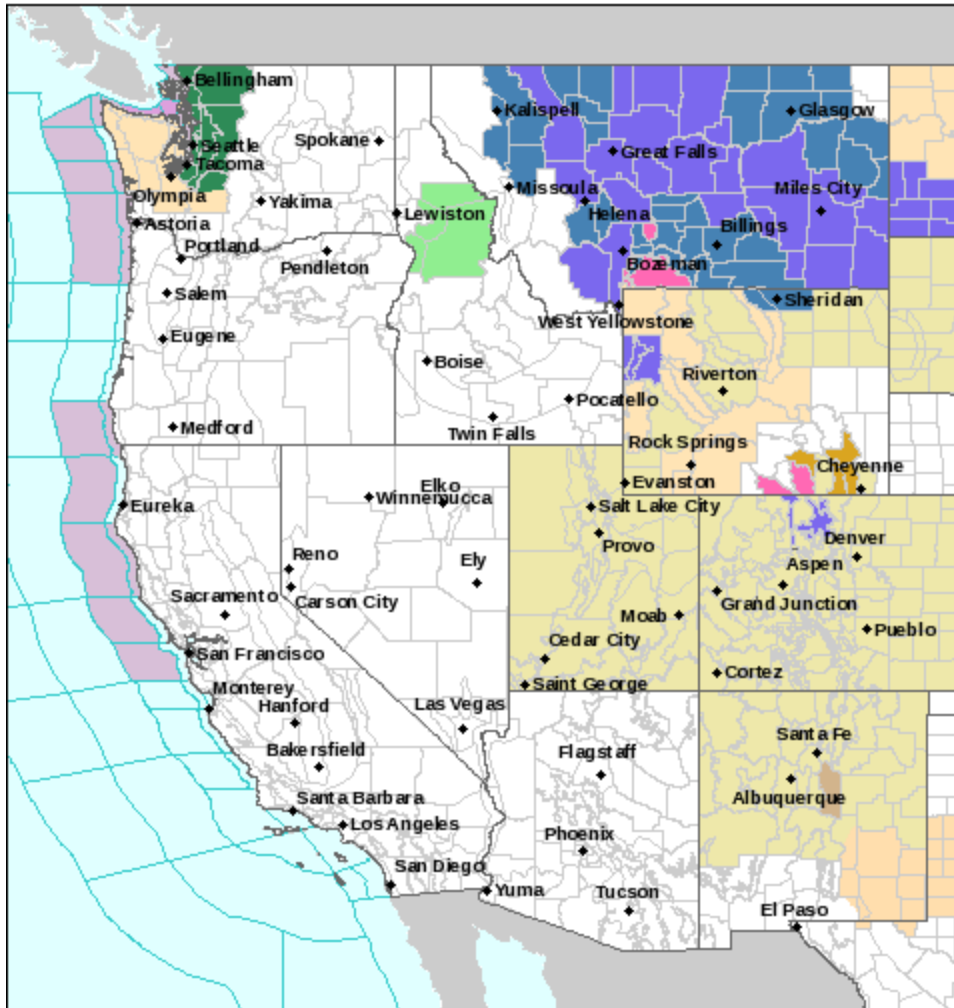

High pressure just off the CA coast will strengthen over the next few days. This pattern will produce mostly clear skies and well above normal temperatures under a dry NW-N flow aloft. Afternoon temperatures will be as much as 20 degrees above normal with minimum RH reaching 18-28%. N-NE surface winds will gust to 25 mph or so in the typical areas from the western Cascade-Sierra slopes to the coastal mountains today. The winds will spread to the southern end of the Mid Coast PSA and to wind-prone portions of the Bay Area tonight and Saturday, and continue down the western Cascade-Sierra slopes and throughout the Sacramento Valley and surrounding foothills. The peak winds will be around sunrise on Saturday, with the highest gusts reaching 35-45 mph. These winds will die off Sunday afternoon, but another similar round of gusty N-NE winds is expected Monday night and Tuesday. Computer models are showing a potentially stronger wind event late next week and into the weekend. At this time computer models are showing this warm, dry and occasionally windy pattern lasting into the middle of February.

SOUTHERN CALIFORNIA

A ridge of high pressure will barricade itself along the west coast, maintaining sunny skies, well above normal temperatures and low daytime RH through the period. However, some patchy night and morning low clouds and fog will be possible across the San Joaquin Valley due to strong inversions. Temperatures today through the weekend will range from the 50s to lower 60s in the mountains to the 80s across the foothills and lower elevations of the region. Minimum RH will continue to drop into the 10-15% range for 6-8 hours each day. A minor amount of cooling will take place Monday and Tuesday, but the middle of next week looks even warmer with highs possibly surpassing record high readings next Wednesday and Thursday. Light offshore winds will be possible during the middle of next week. No rain is indicated by any of the long range models through the middle of the month.

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Cal OES LAW ENFORCEMENT MISSIONS

Ongoing Cal OES Law Missions

- **2017-LAW-45043, 01/30/18, 1245 hours:** Modoc County Sheriff's Office requested the use of an Avalanche/Snow search dog to search for a missing person in the California Pines area of Modoc County. The male subject has been missing for 10-14 days. The State K9 Coordinator was notified of the request. A dog team from Wilderness Finders Search Dog Team (WOOF) accepted the mission and will respond on 02/03/18, to conduct the search. **Mission Ongoing**

Closed Cal OES Law Missions

- **2018-LAW-45090, 02/01/18, 2130 hours:** Humboldt County Sheriff requested assistance in the search for a missing person. They requested a search helicopter from the US Coast Guard. As additional information was being gathered, the subject was located and mission cancelled. **Mission Closed**
- **2018-LAW-45070, 01/31/18, 2100 hours:** The Sacramento County Sheriff's Office requested a K9 (Cadaver Dog) for a law enforcement sensitive investigation. The operation will begin on Friday, 02/02/18 at an undisclosed location and an undisclosed time. The K9 resource was located and a Mission Tracking number was provided. **Update: 02/02/18: Sacramento has cancelled the request. Mission Closed**
- **2018-LAW-45019, 01/29/18, 1800 hours:** Santa Cruz County Sheriff's Office requested the assistance of a K9 (Cadaver Dog) for a deceased person believed to be located in a creek bed. The report came in on Friday night, and when the reporting party returned to the area he was unable to locate it. The Santa Cruz County Sheriff's Office will be continuing their search efforts on Thursday, 02/01/18, at 0800 hours. The Cal OES Law Enforcement Duty Officer (LDO) made contact with the CalOES K9 Coordinator who advised that the mission request had been accepted and would deploy on 02/01/18. **Update: 02/02/18: Mission was completed with a successful find. Mission Closed**

Cal OES MISSION TASKING

Cal OES Missions

- **2017-Cal OES-42559:** Weather station installed to gather real time rainfall data by Air Resources Control Board (On Scene).
- **2017-SOC-44098:** CalRecycle Debris Management Team in Ventura County.
- **2017-SOC-44022:** Two E-BAM (air monitors) from Air Resources Board/Office of Emergency Response to monitor smoke from the Thomas Fire. Location one: Olga Reed Elementary School (480 Centennial St., Los Alamos); Location two: Carpinteria City Hall (5775 Carpinteria Ave., Carpinteria) (On Scene).
- **2017-SOC-43821:** DTSC to remove household hazardous waste from over 500 residential lots in Ventura County (On Scene).

Cal OES

GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
